HISTORIC & CULTURAL RESOURCES REVIEW

Property / Client Name:	Entiat Stormy Reach Acquisition Phase 2, 11-1415
Worksite Name/Number:	Stormy Reach Phase 2 (Worksite 1 of 1)
Funding Agency:	Rec. and Conserv. Office

Project Applicant	Chelan-Douglas Land Trust
Contact Person	Mickey Fleming
Address	PO Box 4461
City, State, Zip	Wenatchee, WA 98807
Phone	(509) 667-9708
E-Mail	mickey@cdlandtrust.org

Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	Marc Duboiski, Email: marc.duboiski@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

The Chelan-Douglas Land Trust seeks to acquire fee title to a 53 acre parcel from a willing landowner at River Mile 19.7 -20.2 of the Entiat River, a tributary of the Columbia River. It is a Category 1 Watershed, designated as Key Watershed in the Northwest Forest Plan, and "is a critical habitat for spring Chinook salmon, steelhead and bulltrout" (Biological Strategy 2003). This reach (2C) has high complexity in an unconfined floodplain (Entiat Tributary Assessment, BOR Jan, 2009). The Stillwaters from RM 16-25 is first priority for land protection and acquisition, with "large pristine areas would be the highest priority." (UCRTT, Feb. 2007)

The property includes the alluvial fan of Tyee Creek, which splits as it flows to the river, and feeds a network of off-channel habitat. The property includes 3,380 feet of riverbank, 1,690 feet on each side. According to the Bureau of Reclamation mapping, 78% of the site is within the floodplain, all of the channel migration zone on river right lies entirely within this property, and the property has natural accumulations of large woody debris (BOR 2009).

Describe existing project site conditions.

Vcanat. The 4.8 acres across the road from the river has power and a well, and was used as a future building site by the prior owners, but no structures. This is a Category 1 watershed and Tier 1 priority habitat action under Biological Strategy of the Upper Columbia Salmon Recovery Plan. Specifically, the Biological Strategy states that "there is a high level of concern about the impact of development on this reach. There is a strong consensus among RTT members on the need to protect stream channel functions." This property has floodplain, side channel habitat and LWD. The Bureau of Reclamation Reach Assessment recommends protection for this property.

PROJECT REVIEW SHEET - EZ1

HISTORIC & CULTURAL RESOURCES REVIEW

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra
None.

Will buildings be altered or demolished? If so please complete a DAHP Determination of Eligibility EZ2 form for each building affected by the proposed project and attach the form to your project in PRISM. <http://www.dahp.wa.gov/pages/Documents/Sites.htm>
No.
